The Nutraceutical Solutions!
PROVIDER OF NUTRACEUTICAL SOLUTIONS

OUR MISSION is to contribute to the business development of our B to C customers by providing innovative nutraceutical solutions and by continually striving for excellence in our products and services.

Hedelab provides a quality service, designs and develops customised nutraceuticals solutions.

We are present at every step along the value chain. The company selects and invests in people with the best talented skills and experiences in order to make your idea become a real successful project.

Hedelab differs also by its internal quality process (ISO 22000) and also by its ability to help the customer so that he can bring to the market products that meet the standards wherever in the world (service and formulas in line with the regulations). Our service is provided by professionals with specific technical skills in order to guarantee the quality aspects of the nutraceutical solutions.

The company develops graphic solutions, assists the customer with the design and the launch of its new product (logo, design...) and helps creating a commercial pitch based on scientific documentations. Hedelab is able to provide personalised ready-to-sell and ready-to-use solutions.
Our know-how lies in manufacturing and processing dry or liquid formulas in various innovative shapes adapted to our customers’ needs.

As Hedelab follows quality management, the company also ensures a safe storage with a controlled temperature and clean handling of the products during all the process.
